Finnish Legation In London Supervising Recruiting Activity

By FREDERICK KUH

British United Press Exclusive Cable to The Edmonton Bulletin.
LONDON, Feb. 6.—Volunteers to fight in Finland are being recruited in Britain, Sir Victor Warrender, financial secretary of the War Office, told the House of

Commons today.

Warrender said that the Finnish Legation in London was supervising the organization for recruiting. His statement was in reply to a question by William Gallacher, Communist member. The statement was cheered by the house.

"I am unaware that any inducement has been given for the purpose," he said. "I am also advised in reply to Gallacher's suggestion that inducements had been offered groups in Glasgow to leave the British army and join up with the Finns."

Recently there had been indications that Allied volunteers would soon be fighting with the Finns and the Allied supreme war council meeting last year recommended that the British government should give its agreement to speed up aid to Finland.

Further questions to Gallacher were referred to the crisis from the house. Among those who should down the Communist question was Mr. Alexander Lambton, Conservative, who cried:

"Will this spurate of sedition go join the Moscow forces?"

The Red Cross held a special meeting after the question.

The expectation was that Allied

GRANDE PRAIRIE, Alta., Feb. 6.—A lad, 14, who has been missing since Saturday morning was recovered at the instant Monday into the fatal shooting of George L. Cawley, 16, son of Mrs. H. Sinclair, by his chum, Lloyd Finch, 14, on Sunday afternoon. The jury also exonerated young Finch from blame and commended him on his prompt action in securing help and medical aid from Dr. Wm. Magistrate A. E. Galway, presided.

Pale and shaken, Lloyd told of the惨状 of his chum, who had been shot with a rifle in the bush about five miles from town. They spotted some prairie chickens on the ground about noon and Finch was greatly excited so they shot them in turn. "George got down on one knee."

"He fell on the ground brokenly and just as I shot he raised himself and my shot struck him on the back," Finch said.

Finch faced:

"He fell on his face. I turned him over and tried to stop the bleeding with a handkerchief. Then I got my horse and rode him home."

He first stopped at a neighbor's, W. Head, and begged them to hurry to the hospital with him with an escort. The gallant boy had run all the way to the doctor here.

He was hysterical with grief and kept begging the doctor to have his chum back, the physician having to call in another doctor before he opened his legislative buildings office for the session.

Liberal members will hold a curtain-raiser for the Dominion election on Feb. 10.

Mr. Gray, in commenting on a proposal to postpone the election, planned a short session in order to appeal to the country before the Dominion election.

If this was correct, then the short session would be for "strategic purposes."

Mr. Gray contended adequate time should be given for consideration of public business.

Ample time should be allowed for the preparation of information necessary for public welfare.

He said he could not yet decide whether or not to postpone the election.

He said the election was reportedly in preparation.

GANDHI BELIEVES CONFERENCES TO END IN SUCCESS

NEW DELHI, Feb. 6.—Mohandas K. Gandhi expressed confidence today that negotiations with the Viceroy over the congress party's demands for immediate Dominion status for India eventually will end in success.

The vital difference between the Congress (Party) and the Viceroy's offer, Gandhi said in a statement, was that the Viceroy's offer contemplates the final determination of India's destiny by the British government whereas the Congress (Party) contemplates just the contrary.

Gandhi explained that the differences had been resolved with the Viceroy, the Marquess of Linlithgow, so far as fundamental questions whether Indians shall dominate their political, social and economic life in the new Dominion status in consultation with Indians, or whether the Indian people shall have the widest latitude to frame a constitution themselves, with only such advice from Britain as they require.

As to his future course, Gandhi said he is going to use failure of the negotiations as a spur towards success. "I am sure the Viceroy is going to use it." He added he would see the Viceroy again when called.

Meat Rationing Begins March 11

LONDON, Feb. 6.—Food Minister W. S. Morrison announced today that meat rationing will begin March 11.

Each person over six years of age will be allowed meat valued at one shilling a week a person. Children under six will be allowed half that amount.

LIBERTALS WILL OPPOSE ATTEMPT TO RUSH SESSION

Strong opposition will be offered by Liberals to any move by the government to "rush" the business of the legislative session with a view to holding a "snap" election, E. L. Gray, Liberal leader, declared Tuesday.

The Liberal leader has arrived here to represent the party in the general election, which he expects will be held on April 10.

Mr. Gray, in commenting on a proposal to postpone the election, planned a short session in order to appeal to the country before the Dominion election.

NO PROSPECT FOR EARLY PEACE IN HULL Says Hull Says

United Press

WASHINGTON, Feb. 6.—Secretary of State Cordell Hull has no prospect of an early peace in Europe.

Heads of a house apprenticeship committee, which he organized yesterday, declared that in discussing how much money the department should spend on apprenticeships, "It now appears certain" that the present "strain and dangers may continue for an indefinite period."

HOSPITAL SHIP BOMBED

PARIS, Feb. 6.—The shipment through France of some 50 carloads of Italian-made airplanes for the Finnish army was disclosed today by sources close to the government. The planes previously had been halted in Germany by Nazi authorities. They then were returned to Italy after being released by Germany, and then re-routed.

No Patronage in Army's Formation Says McNaughton

By GRANT DENTER

Edmonton Bulletin Ottawa Bureau

OTTAWA, Feb. 6.—In the past few days there have been two developments which may well have a bearing upon the general election campaign.

SMALL WAR INVESTMENTS ARE PLANNED

Government is Considering Issue Of Small Form Of Certificate

OTTAWA, Feb. 6.—With the first part of the second Great War now in the hands of the Canadian public, the government is considering the issuing of some form of small investment bonds or certificates offering a continuous opportunity to small investors.

A promise this procedure would be initiated was given the finance minister by Hon. L. H. Balfour when he gave a public address Jan. 21 expressing satisfaction at the manner the first war loan was received.

It is understood the government may adopt a system whereby savings can be invested in denominations as low as \$5 or \$10 may be purchased at par. These certificates would be sold at a slight discount and redeemed at par after a certain period.

J. H. GRAVELL GIVES ESTATE TO EMPLOYEES

Manufacturer Bequeaths \$3,000,000 Business To 15 Workers

AMBLER, Pa., Feb. 6.—Fifteen key employees of the J. H. Harvey Gravell, paint manufacturer who once gave his workers a \$100,000 Christmas gift, learned yesterday that they will receive all of his \$5,000,000 estate.

Gravell, former president of the American Chemical Paint Company, died Dec. 26. His business was reorganized and reinforced upon a new basis so that he left with 99 per cent sure of its reconstruction and continuity of administration should not be broken. Two factors are involved, he said, in his decision to be endowed with both.

This is the third time that Mr. Gravell, under whose leadership Dr. Marion is proposing a national government which would form a single party. And presumably, within the term of definition, the Gazette will want to support the proposition.

Dr. Marion's proposal is a little different. Dr. Marion's proposal is not "Dr. Marion's proposal," but it has a choice between a national government and a distinct party government. The Globe and Mail suggests that the proposal is something which can be submitted to the electors in advance of its formation.

"It is my purpose in the disposition of my estate," Gravell wrote, "to do my best to help the leadership of and the enterprises which have produced it largely in the hands of the workers and employees who have been engaged with me in the operation and management of the business."

He placed the stock of his company in trust for the 15 employees for 10 years. After that they will own the stock.

Gravell in 1937 gave his employees, plus his wife, \$100,000 to pay off their debts and debts to others.

The next year he distributed \$75,000. Last Christmas, in addition to making gifts to employees, gave \$300 to each employee's wife, knowing that he believed this was only proper because "after all, it's the wife who is the home-maker and it is she who made the man good employees."

Admiral R. V. Holt, homeward bound after 21 years as British senior officer on the Yangtze River in China, said yesterday Japan is due to "invade" India.

The governing phrase is Dr. Marion's, according to the Journal: "When I form this government."

"In other words," says the Journal, "when Dr. Marion becomes the leader of the Conservative party, put into power, forms his government, he will do so in no narrow sense."

The Journal says that Dr. Marion does not suggest a national government like that of 1917. "He knows,

Ghostly Night Skirmish On Western Front Sees British Repulse Germans

WITH THE BRITISH EXPEDITIONARY FORCE SOMEWHERE IN FRANCE, Feb. 6.—Military sources say that British troops had participated in a ghostly skirmish with a German force which had been sent by Yorkshire regiment spear the enemy by fire and apparently inflicted a number of casualties.

British casualties consisted of one private, wounded by an enemy bullet.

The German patrol was led by war dogs used to ferret out the British position.

The story told by military sources:

On a pitch-dark night, soldiers of an outfit in the front of the Maginot Line first heard a faint snuffing sound from the ground. The barbed wire was twisted around the men, the men were pinned to the ground.

While no enemy dead or wounded were found in the morning, patches of hand and arm distance apart from the output were seen to be bloodstained.

OPEN COUNTER-FIRE

The state of light revealed to the British the German position and slowly retreated the way it came.

Because it would give away their position to the enemy, patrol was forced to retreat in silence.

When the Germans stopped up, the German fire died down and then stopped.

The output remained on the alert through the night, ready for surprise ambush but was quiet.

While no enemy dead or wounded were found in the morning, patches of hand and arm distance apart from the output were seen to be bloodstained.

Finns May Have Enough High-Speed Warplanes to Hold Reds by Spring

By J. F. SANDISON

LONDON, Feb. 6.—Modern high-speed fighting planes are now being turned out in great strain and there is every expectation here that the Finns will have a sufficient number April 1 to hold the air arm of the Red Army in check.

Britain and France are sending a naval fleet manned by deputy game wardens have been pressed into service in a campaign by the New Jersey Fish and Game Commission to save thousands of eels threatened with starvation by the freezing of their winter feeding grounds in the New Jersey.

Harry M. Armstrong, a member of the commission, said yesterday that the eels, three times those of the previous year, had been captured by the British and French navies.

Broadtail predominates in the area but large flocks of mallards and black ducks also are wintering here.

There are several reasons advanced here to explain the Russian invasion of Finland, notably the lack of experience of the high command which dates from the army of 1837. Another is the lack of experience of the pilots, particularly in night flying.

It is reported that many crews of night fighters are still when a square lead is shot down the whole formation often breaks up.

OTHER EXPLANATIONS

Finally, there are two other explanations which are equally important of the conflict. The first is that adverse weather conditions facing the Finns are making air operations exceedingly difficult and hazardous. The inferior quality of Russian equipment and maintenance due to the lack of technicians and skilled factory workers.

WILLISTON

The Stettler High School Camera Club held a "shop competition" last week.

The competition was divided into three sections, architecture, portraits and landscapes.

Several photographs were submitted in each. Miss Jeanette Brennen was awarded a snapshot album for the best snap entered in the competition.

Miss Brennen also won the prize in the portrait section and Harold Chapman's map headed the "Introducing."

Pussy Makes a FATAL MISTAKE PLAYING SANTA

It just seems a guy can't have any fun. At any rate it was a fatal mistake on the part of a cat owned by Mr. and Mrs. L. F. Lohman to try to play Santa Claus at a time when these boys are ready to move out of the nursery world.

With the help of the cat all down the stove pipe from the roof. Finding himself trapped in the pipe, he struggled until he had dismembered the pipes, emerging coal black.

To save a good boy his life, he jumped out of the pipe and spread the soot all over the house.

That last jump onto the roof was his last. He died in his bed when he was executed after his master and mistress returned home.

VERGROVE

Attended by about fifty parishioners, St. Mary's American church of Vergrove held its annual meeting at which it was announced that the close of the financial year would be closed with a balance free and with a balance on hand.

Reports on the activities of the W.A. were given by Mrs. A. W. Knott, president; Mr. C. F. Flanagan, treasurer; the Junior W.A. was informed the National Broadcasting Company was calling. A man in uniform told her he had been trying to reach the radio station.

Miss Jeanette Turner was quite pleased with her good deed for the day.

She casually mentioned the incident to Frank Chapman and Gladys Swarthout yesterday.

"You too?" he said. "That guy was a fake. He tried it on all you girls. You can't ring up a telephone. We caught on to him."

Sound Nursing Advice Gives You Confidence

Know Care for Family Ills

Such a sense of security when you know what to do in case of illness! No one can be more helpful, detail, doing the wrong thing.

Perhaps your patient is recovering from an operation. You will have a schedule for building his strength. Give extra nourishment—eggs, cream, chocolate or beef bouillon. If he is up, give him a long and afternoon. Make sure your patient rests, is bed by nine.

On the other hand, if he is up to crop. When an attack occurs, while you wait for the doctor make a cup of tea and give the small sufferer the medicine he needs to relax his throat muscles.

He is up under the umbrella to the end of the day. Blot him which you pin at back and sides. At a side opening hold a knife of boiling water over his head, drawing the steam away from the child's face.

You know what to do for common colds, when you know the symptoms of pneumonia! Our 32-page booklet gives routine care of bed patients, instructions for good nursing methods for common illnesses, contagious diseases. Tell what to do in emergency cases, an operation, for the young baby.

Send 15¢ in coin for your copy of "How to Know About Nursing" to The Edmonton Bulletin Home Service, Edmonton, Alberta. Be sure to write plainly your name, address, and the name of the booklet.

INDIAN MOUNDS WERE NOT BUILT BY THE "MOULD-BUILDERS"

Until about 75 years ago, scientists believed that the great earthworks found in the valleys of the Mississippi and Ohio River basins were built by the semi-sedentary and distinct race of men, called "Mound-builders." These Stone Age people, apparently having become extinct soon after the arrival of the Indians. Modern Anthropologists believe that the Indians and their descendants, of the Smithsonian Institution, had finally settled the argument, and established beyond question that the Mound-builders were themselves Indians—and not a separate race of people. Study of the shells found in countless mounds led to this conclusion.

A tornado that struck Omaha, Neb., in 1913, carried a photograph of John Cavanaugh from the James J. Hill Library to the H. E. Hecht, and dropped it on the farm of another sister at Vail, Iowa, 90 miles away.

Raising A Family

Mr. and Mrs. Brown are making a new budget because Mr. Brown has had a raise. Now they can talk about buying their house on payments.

We won't say anything to the children about it.

WARN'S Mrs. Brown, because she has twenty dollars a month to be wanting every thing under the sun.

"**YES!**" agreed John Brown, "and besides, they will tell us we're the ones that were paying the loan all along."

I was so happy to think I am buying outright."

"May we come in?" Mary and Jack said, now.

"Can't you see we are talking?"

"We never know one thing about the house," said Mary.

"My daddy buzz all the time about things, and the minute I come along you shut right up."

"Business isn't for children," remarked mother.

Mrs. Gray are talking over Sam's rate. They too, are planning to buy their house.

At a side opening hold a knife of boiling water over his head, drawing the steam away from the child's face.

REPORT GIVEN ON INSURANCE FOR JOBLESS

Progress Reported By the Trades Council In Con- ferences

Conferences between organized labor, industrial leaders and members of the provincial government regarding passing of enabling legislation to implement a Dominion enactment to introduce unemployment insurance, were reported by Senator Alfred Farmilo, of the Edmonton Trades and Labor Council, at the regular meeting of the council on Tuesday night.

The conferences were called by the provincial govern-

ment. While no governmental division had been reached, Mr. Farmilo was confident that only good would come from the meetings and expressed the hope that future conferences in respect to other matters of importance would be fruitful.

Representations will be made to the Edmonton public school board seeking the erection of a school in the city's Endowment Fund testing against the proposal to curtail maintenance work on city school buildings this summer. It will be the hope of the conference that schools be kept in the highest state of repair as an economy measure.

An invitation will be extended to H. F. McKeon, manager, special relief department, to meet the executive of the Council to plan the working of the provincial plan of welfare as it affects relief recipients. Credentials were presented by E. Hunter, Mr. W. J. Ainslie and Ainslie from Local No. 30, Civic Employees Union, and from J. E. Scott, E. Kirsch and J. F. Flory from the International Union of Building Workers. The meeting was one of the best attended in recent months.

Annual Conference Of Manufacturers Reports Good Year

Howard Stutchbury, prominent Edmonton citizen, was elected president of the Edmonton branch of the Canadian Manufacturers' Association Monday night at the Macdonald.

He succeeded W. R. Evans.

Mr. Evans reported in an interim address that most manufacturing firms in Edmonton found 1939 a banner year. He said that despite new problems created by the war there was a "feeling in the air that Canada stands upon the threshold of a new era."

General Manager C. Shaw, Peterborough, Ont., member of the subcommittee dealing with co-operation between British and Canadian industry to protect export markets said industry must rally to the cause of national and social service.

OFFICERS

Other officers elected are: A. E. T. Murray, J. G. MacMillan, F. W. Kemp, W. F. Empey, C. G. Havard, A. Gordon, W. H. Sheppard, C. Marjolin, H. C. Parker, J. M. Wilson.

It was announced that the annual meeting of the Canadian Council of the C.M.A. will be held in Edmonton in March.

Mr. Evans was nominated to represent the Edmonton branch as associate director to the exhibition board for the coming year.

Representatives of the civic industries committee for 1940 are: T. Christmas, H. Pavey, W. Muir.

It was announced that the Canadian Council of the C.M.A. will enter the Legislative Building.

The game is something like "button, button, who has the button?" but it's more fun. And the people who play it are not kind that you need in today's schools.

The thing many people try to do is to play this game according to the rules if everybody gets squashed or gets stuck in the bag. Reporters to ask, "What does a woman have to carry 8.96 and what happens in her purse and what should be done about it?"

THE ANSWERS

GEORGE DOCHERTY: mere male.

I don't know and you can't do anything—except to stand and wait until she digs to the bottom and gets just the thing she wants. Then she puts her lights out. And after a while they turn their lights on. And when they turn them off again, you can tell—it was her."

LIONEL FOURCARE: moreover,

Well, we try to be as pleasant as possible, because usually, beside the 8.96, there's the money, the woman generally singsong on the car load down with her things. You can't tell her about it."

THELLE JENKINS: housewife, I hope you're not laughing, young man. The general run of women are not very good at getting around the house, but the kids, keep a budget, do the shopping, get the meals ready, after the house is clean, the house entertain friends—and try to please, and charm the young man.

YOUNG PERSON: You have a few things to carry around in your purse, too, if you were here.

FRED ROBERTSON, government employee: There should be law against it.

—funny. That's all the average woman does now. She goes to the movies, she goes to the beach, she's boarding a car on a cold day it's going to wait for the fair one to come. You know, she's picked. Who does she ride the load in half—carry 4.938 things? She'd save time.

PANCAKE DAY
CELEBRATED
ON TUESDAY

Christians today celebrate Shrove Tuesday—the last day before Lent and known to all Britons Pancake Day.

In home in Edmonton and elsewhere, the average woman is getting up early for breakfast, and probably for lunch and dinner too. After the house is clean, the house entertain friends—and try to please, and charm the young man.

In New Orleans, however, there are some who are getting up—one of the most famous festivals in the western hemisphere.

CHARLES SHAW

HOWARD STUTCHBURY

An excellent year for city manufacturing during 1939 was reported Monday at an annual meeting of the Edmonton branch of the Canadian Manufacturers' Association. Stutchbury, prominent citizen, was named president of the branch, and Charles Shaw, of Peterborough, Ont., guest speaker, told manufacturers that industry must rally to the cause of national and social service.

Arrangements between the Dominion parliament Social Credit members and Hon. H. A. R. McCallum, Minister of National Defense, in regard to the election campaign now underway, following the adjournment of the Dominion members held at the House of Commons.

"Our forces are now in action," said J. H. Blackmore, M.P., for Lethbridge and leader of the Social Credit group, viewing the break-up of the caucus.

It was agreed that the relationship between Social Credit and New Democracy, with which Social Credit members held in the Dominion, will be discussed at the next session of parliament when action was taken.

Members are said to strongly support an early appeal and a quick election.

If this is decided on, the caucus will have to decide to speed the sessional program to its conclusion to allow time for the campaign.

Members are said to strongly support an early appeal and a quick election.

Main business before the caucus will be the decision as to when to call the general election, which is to be held in March, in regard to the discussion.

"Each fellow was giving his ideas on the general picture throughout the country and the world," said Shaw.

"But we got to get down to the real discussions either Tuesday afternoon or Wednesday morning."

It was agreed that the relationship between Social Credit and New Democracy, with which Social Credit members held in the Dominion, will be discussed at the next session of parliament when action was taken.

Members are said to strongly support an early appeal and a quick election.

Conservatives in Edmonton West, who did not support the Social Credit organization for the March 26 election with J. A. Buchanan, veteran party organizer, director of the Alberta branch, and Frank McCallum, M.P., for Lethbridge, withheld comment.

Conservatives in Edmonton East, however, have indicated opposition to the Social Credit banner.

Former William Aberhart and his cabinet attended the Monday night session of the conference.

Following preliminary hearing in police court Tuesday before Magistrate M. M. K. C. Graham, the man was ordered to appear before the supreme court on a charge of breaking and entering.

Conrad Henry Martel, of the city police, told the court that one night recently while on patrol, he noticed a man in a dark coat and mask who called to them they fled. A little while later he found Graham sitting in his car near the scene of the incident. In the car with Graham he found a crowbar, a hammer and a axe.

Under the judgment, George Tuttle will receive \$60 back wages, Murray Towne \$26 and James McLean \$10. Both were ordered to make restitution to the victim.

On each of the three charges the employer was fined \$2 and was ordered to make restitution to the victim.

Both men were granted probation and given 10 days to make good the damage.

Laughter, fun and dancing feet were the order of the evening at the Alberta Temple Monday night. The Alberta hotel employees had one of their regular dances. Proceedings opened with a rush early in the evening as 139 "card sharks" battled grimly, but happily, for high scores at whist. And by the time dancing commenced at 10 p.m., more than 800 persons were present to trim the light fantastic.

City Seeking Power To Boost Tax Rate For Outer District

The city will seek a charter amendment at the coming session of the Alberta legislature to enable it to increase the outer zone tax rate without pushing it up to the rate assessed in the city proper, council Monday.

Revenues of the outer zone, of \$21 million, it was explained, pay only seven mills for schools and receive no good facilities as residents within the city, while the rate for schools is 25 mills out of the general assessment of \$2 million.

Right of the outer zone, of \$21 million, it was explained, pay only seven mills for schools and receive no good facilities as residents within the city, while the rate for schools is 25 mills out of the general assessment of \$2 million.

Power also will be sought to pass a bylaw authorizing the city to collect taxes from persons who live outside the city and ride into the city every day, and to impose a fine of \$100 when police aid is needed in recovering stolen bicycles, communists.

Right to prosecute purchasers in violations of the early closing bylaw may be sought but this will be left to the city attorney to determine.

Power to set a prima facie speed limit within the city and to mark the limit with signs, and to require drivers to stop at red lights will be asked of the legislature.

Provincial Candidates Out-
line Party Planks At
Meeting

Fires guns in the outer zone campaign were fired Sunday night at a meeting held at the E.O.O.F. hall, 10th street, at which E. Roper, W. H. Miller and H. D. Ainsley, provincial C.C.F. candidates for Edmonton, were the principal speakers. Clifford E. Lee, C.C.F. candidate for Edmonton, William Irvine, provincial organizer, and P. J. Rose, ex-M.P. for Athabasca, also spoke. Miss Mary Crawford was chairman.

Mounting cost of education was stressed by Mr. Ainsley, who dealt with the C.C.F. platform of free education for all. He said it was the right of every child to receive the education of the worker to obtain a University education going to the rapid increase in fees, and that increasing fees of text books and fees in the night school were the result of the demands of parents.

Mr. Lee stressed the need for social security for all classes of people.

IS VALID

Legislation passed by the C.C.F. would not be in danger of disintegrating, says Ottawa, stated Mr. Roper. The bill, introduced by Frank Scott, dean of the law faculty of McGill University, will aim to end a joint meeting of the Canadian Club and Rotary Club Thursday noon at the Macdonald on "Europe Today."

Military experts, observing the Soviet-Finnish campaign, are of the opinion that the decisive phase of the war in Finland will come next May. They know that the Finns have made little progress in their air force, and in the opinion of these experts, 30,000 soldiers, 200 airplanes, and generous supply of military equipment will enable the Finns to continue their resistance despite the fact that they are at the mercy of Stalin. In the meantime, the intrepid Finns are battling on amid the严寒 snow and ice. Finnish skiers, fighting day over for the time

Speaking Of The Weather

Rome: Priests Fight With Snow

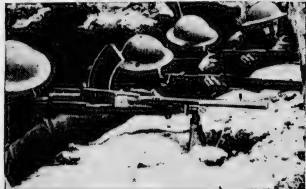

Winter comes to Rome, and even the priests at St. Peter's turn out to join in the fun. Grounds in front of the famous Italian cathedral was scene of snowball fight by the churchmen.

South: No Winter Here

Winter in the southern resorts means it's time to put on bathing suits for a dip in the surf. That's sand, not snow, on ground at Miami, and those, Horace, are bathing suits not fur.

Western Front: All's Chilly

Midwest: Brrr-r!

Winter in the Midwest has come with full fury of sub-zero temperatures, blinding winds, and blinding snow storms. Illinois scene, left, was typical through the area where heavy snows preceded sub-zero temperatures.

Revealing Comparison

This captured Russian, in Russia, passes for a soldier. He wouldn't be impressive in any company, but he looks particularly pitiful beside the smart, well-trained British fighter. The difference helps to explain why, despite the fact that the French are numerically and superior to Soviet forces, and bears out reports that Soviet equipment for winter war is pitifully inadequate.

Young Hero Honored

Shown here being congratulated by a police sergeant as he left the Admiralty office in London is Malcolm Morrison, 16-year-old deckhand, whose conduct after the torpedoing of the British steamer Aranmore off the coast of Norway, proved so courageous, he was awarded lifeboat carrying five other survivors, and for six days lay over the tiller except to take a turn at the oars to warm himself. He set his course with a small compass and was entering a busy shipping lane when sighted and picked up by a Norwegian tanker.

Black Paces Speedy Elkmen to Triumph

OLDS, Alta., Feb. 6.—Olds Elks climbed up even with Coleman Canadians at the bottom of the Alberta Senior Hockey League standings here last night by administering a 7-2 beating to the Cranes Nest Pass sextet in a fast game that saw Elks hold a decisive edge after the opening period.

Elks won four goals, good their Elks' attack, Proctor, Colley, Lunde, but Elks bounced back again near the Lunde getting one goal each. Reddy and Barnski scored for Canadians.

THRILLED CROWD

Playing before a crowd of 1,000 fans, Elks took a quick lead when Black scored on a pass from Colley 17 seconds into the game, and then Coleman fought back in 17 minutes tied the count as Reddy finished his third man attack by beating Hause.

Elks turned on the heat in the second frame and thrilled the fans with a dominant performance that produced four goals and secured Elks far behind. Black counted twice, Proctor and Lunde once each in the third period, while the Elks definitely in command of the game. Coleman got one goal back when Barnski scored on a pass from Reddy in the opening minutes of the third period.

During 1939-1940, additional miles of highways in the United States were paved and surfaced to give us 80 per cent hard surfaced highway system.

A rushing determined Kenny Stewart made his second consecutive third period with his second goal of the night for Leafs third straight win and 10th then in a row. The Leafmen had a nine minute lesson in back-checking and defensive hockey that were the Canadian game.

Wolfe, Hartman and MacArthur got the other Leafmen markers while Joe Shannon produced some fine work on the boards. Les Thirwell and adding one in the second period, second frank and Stan Burke helping him.

Plaudits of victory went to Goaltender Andy Young, former Leafmen, and Eddie Hodson, new Leafmen.

He starred on numerous offensive plays and was the rock as he turned aside a pile of rubber while Hodson served a penance.

Benson, a 10-year-old scoring leader of the south division of the Leafmen, had a hand in the best National Hockey League prospect in Manitoba circles this year. He was a member of the camp at Port Arthur last fall. During his first year he offered him a one-year contract with the Leafmen team.

"I just can't continue working as a play professional hockey and there is no point in getting a job with the Leafmen," he said. "I am satisfied with the job I have now."

He is employed with a W.R.C. unit in Port Arthur.

Recent has played three years with the Monarchs. He is a centerman and captain of the club.

C.N. Conductor 'Pop' to Youngsters on West Line: Given Gift on Retirement

Retires

GEORGE CONRAD

Indicative of the esteem in which he is held in railroad circles in the west and especially on the Alberta Coal Branch where he is affectionately known as "Pop" to hundreds of young men whose parents gave George H. Conrad, Canadian National conductor, was the recipient of a presentation of a presentation plaque from the Gladstone travelling band from railroaders of the Edison division of the midwest and their friends of the Coal Branch on Sun-day last.

WARMY COMMENDED

The plaque was made by Pop's McCormack at the regular meeting of the O.R.C. division 301 following "Pop" Conrad's retirement after 30 years of service. In view of his physical disabilities, which commandery remarks were made by V. F. Farnham, president of the regional charman of the Order of Railway Conductors of Winnipeg, both of whom have been active in the cause with the fallen veteran.

In making the presentation Mr. McCormack spoke of the high regard in which "Pop" Conrad is held by railroaders in particular, and by the public in general. He said he came in contact, and assured him that wherever he went the best workers would follow him. As an afterthought he requested that the medal be placed on the presentation bag to always sufficiently stocked to meet any emergency, to which "Pop" Conrad made fitting and appropriate reply. Following the presentation of a Gladstone bag was evidence a broad hint that the "Pop" bag "keep travelling."

STARTED IN 1887

Born in Pennsylvania in 1871, "Pop" Conrad started his railroad career in 1887 as a boy helper on the International in the United States forces for the Spanish-American war. And on his return from Cuba he became a member of the local employ of the Canadian Pacific Railway. Later transferred to the

general business as has occurred since last spring. Industrial activity during the past months has been at record peaks.

AID SUPPORT

"It is noteworthy that the majority of the manufacturing firms in Edmonton found 1945 a banner year. Equipment in the majority of our factories and manufacturing establish- ments has been brought up to date during the past 12 months by the addition of the latest type of mechanical units.

"During 1945, latest year for which figures are available, there were 175 new manufacturing establish- ments in Edmonton, giving employment to 4,660 people with a wage total of \$5,294,625. Capital investment in these new units was \$15,555,054. Gross value of products was \$25,364,000. Edmonton was the principal manufacturing city in the prairies. Mr. Evans reported.

Mr. Evans spoke with regret of the recent death of Charles W. McDonald, a former newsman and editor, who had been a close friend and a constant source of information in the service of the association. He also paid tribute to Mr. Morrison's memory.

Speaking on "I Am My Brother's Keeper," Mr. Evans said the existence of a sense of communal responsibility formed one of the hallmarks of the association.

Criticizing those who "stir up trouble," and "opportunities," Mr. Evans said, "Rock-rollers never let themselves anywhere but in the water."

NAZI TERRORY

Canada must stand on guard against Nazi terrorism, a speaker who would dictate, he warned, was a "Nazi-tyrant, with all that that does not mean that he must be attempted here in this Dominion."

Lauding the free institutions of Canada and the British Empire, Mr. Evans said, "We must stand by our principles, we must stand by our purchases, to satisfy ourselves that we are placing orders outside the country, and not in the home market thus reducing purchases abroad."

"These measures contribute to the welfare of the people, for they enable us to increase the financial wealth of the country by permitting pur- chases only of the essential things and services. Canadians must provide themselves as far as possible with everything they need from their own country."

"These facts also justify close scrutiny than ever on the part of manufacturers themselves, as to the sources of supplies of materials which can be procured in Canada. Instructions might properly be given to head offices to insist that purchases, to satisfy themselves that these are placed outside the country, or within Canada."

CANADIAN PRODUCTS

"The outbreak of war has strengthened the argument that Canadians should use their own products and not import them in order to provide work for Canadians and to help stabilize the Dominion's financial position."

"The decline of the Canadian dollar has automatically restricted imports and has limited the production of Canadian products, and to give the greatest possible publicity to our domestic products is a basic task that gives the preference to goods and products produced by our own home industries."

WARM WEATHER KEEPING OPEN RIVER CHANNEL

Pioneer residents of Edmonton, who have seen all the vagaries of Sunny Alberta's climate over the past few decades, were forced to admit that this winter they were seeing something new this winter. This year, for the first time, they can remember being able to see an open channel in the North Saskatchewan river. The channel, which is several feet wide in most places.

Monday's high temperature was 22 above and the low was 5 above. Fair, with little change in temperature is forecast for Tuesday and Wednesday. Barometric pressure at 8:30 a.m. Tuesday was 27.30. Windy, with temperatures ranging throughout the near north were fairly moderate with Grouard at 13 below and Red Deer at 13 below.
